Art Unit: 3621

1. Claims 1-57 are pending in this application.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-18, 38-50, drawn to a method of providing remote access to a group of editors through a central provider, classified in class 707, subclass 1.
 - II. Claims 19-28, drawn to a user interface allowing a holder of a digital image to input instructions on how to modify said image, classified in class 715, subclass 500.
 - III. Claims 29-37, drawn to a method of allowing a customer to obtain edits of a digital image from a remote site, classified in class 705, subclass 500.
 - IV. Claims 51-54, drawn to a method of facilitating modification to a work piece where the work piece is at a remote location without going through a central provider, classified in class 345, subclass 415.
 - V. Claims 55-57, drawn to a method for allowing a holder of a digital image to utilize the service of a photo illustrator at a remote location without going through a central provider, classified in class 345, subclass 619.
3. The inventions are distinct, each from the other because of the following reasons:
4. All inventions are related as different methods and different apparatuses for their practice. The inventions are distinct if it can be shown that either: (1) the methods as claimed can be practiced by another materially different apparatus or by hand, or (2) the apparatuses as claimed could be used to practice materially different processes. (MPEP

Art Unit: 3621

§ 806.05(e)). In this case, each of the different methods as claimed can be practiced at least partially by hand.

5. Because all of these inventions are distinct and because the search required for any one Group is not necessarily required for any other Group, restriction for examination purposes as indicated is proper.

6. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement is traversed (37 CFR 1.143).

7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Cristina Owen Sherr whose telephone number is 571-272-6711. The examiner can normally be reached on 8:30-5:00 Monday through Friday.
